the stock was tolerably steady, though a fraction lower at the close. Eric also declined slightly in closing transactions, but was about as well well sustained as anything on the list. Galent and Rock Island have been steady, but both shared in the dull feeling noticed in other stocks. The Galena carnings for November are reported by private telegraph at \$114,000, which is about \$0,000 in excess of President Turner's estimate. The cash assets and liabilities of the New-Orleans
For the first three weeks the official figures - Banks of the 27th ult., were as follows: 879,500. In Reading the business was not in portant, but the stock was steady at a small decine. Pacific Mail declined 1 & cent, and seems to be coming into barket more freely since the dividend. There is no new feature about the stock that we can learn. At the afternoon session there was a general decline of i to | P cent, but ro great pressure of stocks for sa'e at the reduction, and in later transactions the appeararces were that prices were settling on to those hard points, below which, for some time past it has been difficult to depress quotations. For State Stocks the market is steady and without variation worthy of note. The United States 5s quoted together a considerable amount bought at private sale, were taken on fereign account, and will be forwarded by the next steamer. For Railway Bends the demand se not large, but for some of the issues prices have been steading advancing. Eries of '75 advanced 2 P cent, and 71s 1 & cent. At the Second Board there were considerable transactions in Hudson River 34 mortgages at 742, an advance of ? \* cent over previous quotations. The Hudson River Road's earnings for the month of November, it will be noticed by the returns, show a very handsome net increase over the cor responding month of last year. The closing prices were: For New-York Central, 834 @ 834: Erie, 184; Hudson River, 334 @334; Rending, 514 @514; Galena, 72 | w72 | ; Rock Island, 61 | w62; Michigan Central, 52 | w52 | ; Michigan Southern, 21 | w21 | ; Preferred, 514 2514; Toledo, 313 2314; Illinois Central,

The Foreign Bill market has been moderately active for this steamer, and quotations are scarcely so strong as for the previous packet. The supply of outside bille is better. Sterling ranges from 81 to 91. Francs 5.29@ 5.13). Freights are very quiet. To Liverpool, we quote the

A vessel from Jacksonville to Point Peter, with Lumber, at \$12. A bark of 348 tuns, to Havana, at \$2,000. The clipper ship Sweepstakes sold for \$35,000, and a part of the ship Challenger, on private terms. A vessel from Jacksenville to Richmond or Philadelphia, with Lumber, at \$8. A vessel out to Aspinwall, eith Coal, at \$5. A vessel from Orange Mills to Demerara, with Lumber, at \$12..

The business of the Sub-Treasury was: Receipts, \$64,759 06; for Customs, \$50,000; payments, \$138,-129 39; balance, \$6,418,901 58. The business of the Clearing-House to-day was only \$17,254,744. The funds for the payment of the January interest on the State Debt of Minnesota is already on deposit in this efty. The market for Treasury Notes is heavy, and some considerable lots are pressed for sale. A parcel of about \$50,000 of 4} & cents was sold at par, and 1-10 \$\psi\$ cent premium was bid for 42 \$\psi\$ cents. The new Government Loan is rather more active, but at lower rates. About \$50,000 have been bought to-day, a portion of which was bought on European orders. The result of this loan has been a serious disappointment to takers, and some of those who took at the highest rates have carried the stock through the Summer months without prospect of much profit. The disappointment has mainly arisen from the failure of any important demand for these stocks from Europe. The drain of specie to the South contirues, the Express Companies taking more or less every day. It is estimated that the amounts sent away during the week aggregate between \$500,000 and \$1,000,000, and it appears now to be conceded that the flow Southward will continue for the present. Meanwhile we are receiving gold daily from Baltimore and Philadelphia, and to-day some amounts were received from Boston, where New-York funds have become scarce, and the California receipt of \$1,800,000 most of which has gone into coin will tell favorably upon the specie averages of the week.

We annex a comparative statement of the Imports of Foreign Dry Goods at New-York for the week and

The Albany Journal says: "That canal navigation for the present season is concluded is beyond question, for the ice in it is strong enough for persons to walk upon it with safety. We learn that at various points the transhipment of property from boats to cars has already been commenced, and that the great bulk will ere long be brought to this market.

and that the great bolk will ere long be brought to the market.

"Ice continues to form rapidly in the river, and in the vicinity of Castleton has become quite formidable, though, should the southerly wind now blowing continue for several days, it will effectually use up the present obstructions.

"The tows which ran aground night before last on the Castleton bars were got off at high tide yesterday afternoon at 2 o'clock, and were passed by the passenger-boats from New-York last night at Rednook. The tows which left here last evening floated ever the bars, and were early this morning beyond the reach of ice. The tows took down last evening only nine or ten boats each, on account of the increasing obstructions at Castletor.

LAND SUIT IN WESTERN VIRGINIA .- A heavy suit is being tried in the Circuit Court of Kanawha County, Va., in which Messrs. Emilie and Charles Dumas, E Lacouture and D'Hue de Monsignon, are all suing each other for a piece of land, of which The Kanascha

Star gives the following history:
"It appears that in the year 1831, Col. James Swat "It appears that in the year 1831, Col. James Swan of Boston died in Paris, France, seized and possessed of very large tracts of land lying and situated in the Counties of Randolph, Harrison, Wood, Katawha, Green Bnier, Bath Tyler, Logan, Boone, and other counties west of the Allegheny Mountains, to Virginia. That these tracts, in the aggregate, contained upward of two million acres of land. That after the death of Col. Swan the lands became forfeited to the Com-

of two million acres of land. That after the death of Col. Swar, the lands became forfeited to the Commonwealth, for non-payment of taxes, amounting to some \$70,000. In the year 1838, it was made known to the General Assembly of Virginia, that Col. Swan had rendered service to the United States in our Revolutionary struggles with Great Britain, and had become indebted in large sums of mency to others in the French army, his old companions in arms, and has in his last will directed that his large landed estate in Virginia should be sold to pay his creditors the money thus borrowed. These facts deing made known, the Legislature of Virginia very generously and magnanimously, on the 15th of March, 1838, passed an net converting all the lands forfetted to the State, as before men ioned, to one John Peter Dun as in trust, for the benefit of the creditors of Jamas Swan, which creditors were mostly Frenchmen, residing in France."

The lit gants all claim to have bought the claims of the French creditors to a greater or less extent, and are suing each other and Josiah Randall—that gentleman having a claim of \$15,000 against the land, as trustee appointed by the Kanawha Court. The suit will soon be decided.

RELUCTION OF BRAZILIAN TARIFF ON FLOUR .-

California Government has received from California fell official accounts of the judicial proceedings in the Limentour and Almaden land cases, which have been decided in favor of the United States. The former claim is located in the vicinity of San Francisco, and with improvements supposed to cover forty millions of dellars worth of property, while from the Almaden mines it is stated that eight millions of dellars worth of quickeilver were taken during six years.

The present Attortoy General of the United States, with the view of bringing these long pending cases to a close, employed Mr. Stanton of Pittsburg to prosecute them. In the present of the United States,

ous frauds were exposed. The signatures of Bocene-gra and other distinguished Mexicals were obtained to apparently genuine titles, be, the documents were arte-dated as necessary to communate the ingeniously contrived deception. Although much skill was shown in the forged scale, the cheat was successfully estab-

"CITIZENS" MEETING IN WORCESTER.—There was a large meeting of "citizens" at Worcester, last Wednesday evening, to nominate a ticket for the city election. Dwight Foster presided, and Alexander H. Bullock was nominated for Mayor by 503 out of 533 votes. He necepted the nomination in a neat speech. Snow,—The snow northeast of Indianapolis was much heavier last week than it was at this place. At Crestline it was fourteen inches deep, and at Beilfontaine seven inches. The trains from the northeast were detained several hours, and came into the Union depot with their "cov-catchers" covered with packgrow up to the top of the frame-work to which they were staunched. My bair is now its matural color, and much improved in appearance every way, being glessier and thicker, and much gore healthy looking.

I kny, yours respectfully.

HENRY JENKINS, or Columbia and Carroll etc., Brook yn. Livingstow, Ala., Feb. 14, 1856.

Pros. Wood.—Dear Sir. Your Hair Restorative has done much good in this part of the country. My hair has been slighting when I was quite an miant. I have been using your Hair Restorative for an weeks, and I find that I have a me head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now attant, and advise all who are afflored that way to use your remedy.
